

# Why Permanent?

## Durable & robust.

meetpat's ground-installed design ensures a stable fixture suitable for permanent & long-term use.

## Indoor & outdoor.

Designed to withstand the elements, and rigorous testing has proven a high level of durability. Ensuring long-term quality and performance, even in challenging outdoor conditions.

## Continuous hydration.

For spaces that require a constant hydration solution, meetpat offers uninterrupted water supply, catering to the needs of employees, guests, or members of the public.

## Brand & customise.

Transform your space with a branded meetpat. Customise it to showcase your brand and offer valuable information, creating a standout feature in any location.

## Accessible hydration.

Permanent meetpat provides continuous, accessibility compliant hydration for the public. It becomes a reliable fixture, promoting hydration and serving as an essential community resource for all.
